

Real-time Art Festival Reykjavík Oct 30 – Nov 7

SEQUENCES 2009 exhibits contemporary art with a special emphasis on the ephemeral nature of art this year. Taking up the *vaudevillean* stage; made up of a series of separate, unrelated acts grouped together, SEQUENCES hopes to create a multifunctional stage as a rendezvous for visual and stage arts. *Vaudeville*, a variety entertainment known for its “low” entertainment has had its influence on contemporary pop culture. Its lineup encompassed areas such as music, dance, theater and media arts, offering everything from popular and classical musicians, dancers, comedians, magicians, acrobats, one-act plays, athletes, minstrels, and movies. Sequences 2009 celebrates its century old history and borrows its form in a reinterpreted costume. The vehicle for this are numerous LIVE events taking place throughout the Reykjavík city center; in renowned art spaces, galleries and institutions.

Newly added to the festival lineup are the SEQUENCES 2009 LECTURE SERIES. Speakers include some of the participating artists as well as other invited speakers in the fields of visual arts, stage arts and theory.

Supported by the Visit Iceland Programme of the Ministry for Foreign Affairs and the Trade Council of Iceland.
